

**The high-performance 4x4 tyre that provides greater comfort and lasts 20% longer\*.**

The performance of the Latitude Tour HP: perfect balance.

The new Michelin Latitude Tour HP answers the main reasons for dissatisfaction of 4x4 owners by providing:

- **Greater comfort**

5% less noisy\*

5% less vibration\*

- **Longer mileage life**

20% more kilometres\*

- **Plus improved safety!**

Improved roadholding ability on wet surfaces\*

\*Compared to the Michelin Energy MXV4+

**Main dimensions available**

215/70 R 16 H	245/65 R 17 H	255/50 R 19 V
215/65 R 16 H	255/60 R 17 V	255/50 R 19 H
235/70 R 16 H	265/65 R 17 H	285/45 R 19 V
235/60 R 16 H	275/55 R 17 V	255/50 R 20 V
245/70 R 16 H	235/50 R 18 V	265/50 R 20 V
255/65 R 16 H	235/60 R 18 H	275/40 R 20 W
265/70 R 16 H	255/55 R 18 V	315/35 R 20 W
275/70 R 16 H	255/55 R 18 H	295/40 R 22 V
225/55 R 17 H	255/60 R 18 V	
235/65 R 17 V	265/60 R 18 H	

## 1/ The "terrain-proof" compound for longer life.

The "terrain-proof" is a tread compound derived from technologies applied to earthmover tyres for which abrasion caused by stones is a cause of accelerated wear.

Designed for road performance, the "terrain-proof" compound permits off-road treks, because it offers better resistance to aggressive environments. This means a longer service life, especially:

- in all-purpose use (off-road, gravels, tracks);
- with loaded vehicles (e.g. drawing a heavy trailer);
- in high-speed driving.

## 2/ The **StabiliGrip** sipe for greater comfort and safety on wet road surfaces.

The StabiliGrip allows more sipes to be used (improved adhesion) while retaining greater rigidity of the tread pattern (improved driving precision). Moreover, the StabiliGrip sipes are especially arranged to reduce the tyre noise.

*without StabiliGrip*

*with StabiliGrip*

## 3/ The "Supply yet Rigid" structure for greater safety on wet surfaces and longer life.

- A deformable structure, ensuring a maximum road contact surface.
- A rigid tread pattern which ensures optimum, uniform work by the tyre's contact patch with the road surface.

**Result: Optimized grip, especially on wet surfaces, while preserving regular wear, hence longer mileage life.**

- Speed index : H, V and W
- From 15 to 22'
- M+S marked
- Standard and ZP\* versions

\*ZP : zero pressure

**90% route  
10% hors route**
